

Since I found K-Love on the FM dial, I have not changed stations. This station brings so much happiness and encouragement to my life. The song played on K-Love are great for my children to hear and I am not worried about what the language or content of the songs are about. My entire office listens to K-Love because of its encouraging words. With all of the negative news stories in the world today, it is nice to know that there is a place that I will hear the positive news stories. These are stories not only in my community but also around the world.

I thank you for taking time to read my input about K-Love.
